# *Cell Phone & Tablet Grading Summary*

## **Fully Functional:**

**Tested for powering on with good LCD and good glass. Clean IMEI, in addition to having a good charge port, WiFi, camera, vibration, speaker/microphone, external buttons and battery. They will come with back and battery. They are not tested for connectivity to a network or SIM reader functionality. These phones have mostly A/B cosmetics. iPhones are 100% FMIP-off. 100% no MDM/DEP lock.**

## **PTG:**

**Tested for powering on with good LCD and good glass. The LCD will be 100% functional. Mostly B grade cosmetics, but there could be A- and C+ grade in the mix. We do not check the IMEI for this grade. Removable backs, batteries, SIM trays, and charge port covers are not guaranteed, but if the device comes to us with them then we leave them intact. Light burn in and shadowing on the LCD is acceptable. iPhones are 100% FMIP-off. 100% no MDM/DEP lock.**

## **PTC:**

**Tested for powering on with a good LCD and cracked glass. The LCD will be 100% functional. D grade cosmetics. We do not check the IMEI for this grade. Removable backs, batteries, SIM trays and charge port covers are not guaranteed, but if the device comes to us with them then we leave them intact. Light burn in shadowing on LCD is acceptable. iPhones are 100% FMIP-off. 100% no MDM/DEP lock.**
